"Helping you to fulfill God's vision for you and your church"

March 22, 2008

Dear Friends,

Time again to up-date you on our ministry news. We have been home for the month of March and planning to be home for April as far as the ministry goes. It has given us time to plan for our doctors appoints and all that good stuff that one has to do.

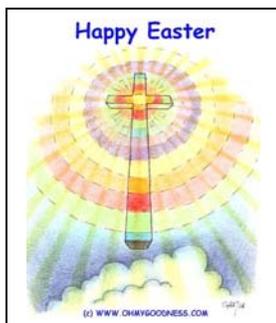

The best news that we have had is that we don't have to plan for the surgery that was possibly facing us. God has given me (Ginny) a miracle. Read about it in our ministry newsletter. We are "Praising The Lord". I had to have the surgery for the Arterial Gram to confirm that I didn't have to have the blocked artery surgery. I was only in the hospital one morning. That was only for ½ the time I was supposed to be because they were able to use a new Star Clousure on me. But, I didn't have any bruising, pain or problems at all from it. I only had to use my head and not do the things that could have caused me to have problems. I have also reach the age of 65, so I have Medicare that has kicked in so that has been a double blessing for us. We have received and we are also able to have more freedom to do more.

We have been able to go a conference in March to help us get fed spiritually and are planning to go to one in April in St. Louis. Our friends that have gone on some of our missions and events in other areas, will be going to the St. Louis Conference with us so, we should have a good time. We are looking forward to it.

May will find us back on the road again. We go to Florida and have a reception Then we will be at Charlene's for 3 days and then we leave from there to go to Paraguay. Coming home we will go to Charlene's to pick up our car and go directly up to Lori-Anne's in Maryland to attend Chris's Eagle Scouts Award and see his graduation. They are all in the same week. Charlene plans to fly up for the graduation and Pat will drive out also for it. Our children are growing up. Lori can't believe she and Bill's son is getting ready for college. He has been accepted at Maryland Sate College. He plans to study Architecture.

We have been enjoying our flowering trees and bushes around our house this spring. I has been a first for us because we have always been away during the March and April times since moving here. We have seen some of the flowers but not the whole showing of them.

Well, that is about all I can think of to write about. I've taxed my brain to it's limit. I'm doing better and better each day. I'll soon be back to doing and keeping a full schedule and teaching instead of just sharing. It's been a learning experience and I don't wish it on anyone. But scripture says,, "I can do all things." I'm trusting and leaning on God to supply each step along the way. He has!!

Until Next Time,,,

All our Love and God's Blessings be upon you,

Bob & Ginny Coulter
